

SMILE!!! You are on camera.

Meet Tanner Piper - a 21st century photographer

Tanner Piper and “team” most frequently capture action shots at sporting events, as well as take the traditional team pictures. With that professional background, Tanner Piper (aka: Piper Sports Photography) will take action shots of all our events Wednesday’s Saskatchewan Night through Saturday night’s dinner, *Champions for Change*. State organization pictures will be taken in the Oak Room on Thursday afternoon and Friday morning (times printed in the program book). On Saturday at 5:00pm, people may just go to the Oak Room for “special” group shots...given Tanner’s experience with moving sports teams, he will be able to accommodate many groups that afternoon. Participants will move into the 21st century as they view the proofs on computers and have their selected images printed immediately. If persons wish, they may purchase a flashdrive with the digital images and print them at home with a favorite developing service. Or, purchase your photos there and be ready to share with friends and family immediately.

The Oak Room will provide a deep, rich wood background for the photos. Additionally, Tanner will offer personalized professional shots on-site for individuals or small groups with a beautifully snow white background.

Check the program for the times that the Oak Room will be open for viewing of the photos at the bank of computers...including for at least 90 minutes following the final event of the conference.

Tanner is a native of Regina who calls his career a “happy accident.” His interest in art led him to photography and graphic design (as evidenced by his work). He is also an athlete and coach.

If you want to meet Tanner and enjoy samples of his work, visit <https://prezi.com/lhgsvmv49vt5/tanner-piper/> and his website pspsask.com
